Fullerton, Calif.
Phone 977-W

April 4 1951.

SELECT PECAN (Pat. No. 510)

Produces sooner and produces more than any other pecan.
Heavy nut, fine textured shell and high oil content. Has
great commercial value.

ROYAL PECAN (Pat. No. 833)

Good producer that comes into bearing before most varieties.
Confection nut with almost white meat and high oil content.
Symmetrical tree, fine for shade or ornament.

Same price as Select.

TROPICO PEACH (Pat. pending)

A new freestone peach with white flesh and pink center. A
wonderful producer, fruit ripens in October. Juicy, fine
flavor and solid enough for shipping.

2.00 per tree

GEM AVOCADO (Pat. No. 773)

A Mexican variety with great resistance to cold. Pear-shaped
fruit has attractive color of ripe eggplant. Size of 1/2 to
3/4 lb. ideal for the market. High oil content and pleasing
flavor.
